

HOW TO REMOVE THE TP CAP ?

1. Open the cap

Grab your spray with one hand on the can and the other on the cap.

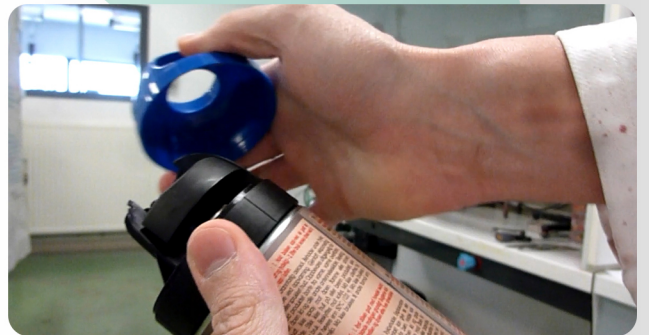

In order to open the cap, make a rotation **to the left** (direction showed by the arrow).

2. Remove the colored cup

Once the cap is open, put your thumb on the top of the notch and push it upward.

Do not hesitate to force. You'll hear a "clac" and the colored cup will withdraw itself.

3. Remove the dispenser

Grab the notch of the dispenser with your thumb. **Be careful ! Do not push on the dispenser or you might be sprayed with paint !**

Pull backward until the dispenser is out.
